Find a good spot

The Nest Thermostat is designed to stay in one place. Choose where you put it carefully:

- It should be installed so that it can communicate wirelessly with Heat Link (up to a maximum distance of 30m). The home's construction and arrangement will affect the communication range.
- It should be near a socket in a room you use often.
- Place it on a table or shelf, 7cm away from the edge. Use the ruler below as a guide.
- Make sure it's not behind anything. It should have a clear view of the room.
- Nest works best when it's 1m - 1.5m from the floor.
- Keep away from hot or cold areas, like fireplaces or drafty windows.

Put everything together

-
- 1 Thread the power cord that came with your thermostat through the stand so the small end of the cord comes out in the front.
 - 2 Plug the small end of the cord into the Nest Thermostat base.
 - 3 Snap the base onto the stand, then secure it with the provided screws.
 - 4 Press the Nest Thermostat display onto the base until it clicks.
 - 5 Connect the power plug to the cord, then plug it into the wall socket.
 - 6 Place the stand 7cm away from the edge of your table or shelf.

All done

Time for setup

Your thermostat will turn on, help you connect to Wi-Fi and make sure that it's within range of the Heat Link.

Moving the stand

Moving it around a bit is fine, but moving the stand across the room can confuse your thermostat. Nest gets used to the temperature and level of activity in one spot and isn't designed to be moved around.

If you move the stand, your Nest Thermostat may need a week or two to recalibrate Time-to-Temperature and Auto-Away.

Cleaning the stand

Just wipe the stand with a damp cloth.

This warranty does not cover consumable parts, including batteries, unless damage is due to defects in materials or workmanship of the Product, or software (even if packaged or sold with the product). Nest Labs recommends that you use only authorized service providers for maintenance or repair. Unauthorized use of the Product or software can impair the Product's performance and may invalidate this Limited Warranty.
